Consent for Treatment with Controlled Substances

The purpose of this agreement is to protect your access to controlled substances and to protect our ability to prescribe for you.

The long-term use of opioid pain medication, benzodiazepine tranquilizers, and barbiturate sedatives is controversial because of the risk of developing an addiction disorder and uncertainty regarding the extent to which they provide long-term benefit.

These drugs are monitored by the State of California and the Drug Enforcement Agency because these drugs have potential for abuse or diversion. Therefore strict accountability is required. For this reason the following policies are agreed to by you, the patient, as a condition for the initial and/or continued prescription of controlled substances to treat your chronic pain.

1. Controlled substances must come from the physician who signs below or, during his or her absence, by the covering physician. Exceptions apply only when a controlled substance is being prescribed in a routine manner by another provider who is aware of all medications.
2. All controlled substances must be obtained at the same pharmacy, notwithstanding pharmacy-related issues made known by you to the practice.
3. You will inform our office of any new medications or medical conditions, and of any adverse effects you experience from any of the medications that you take, or if you change pharmacies.
4. The prescribing physician has permission to discuss treatment details with dispensing pharmacists, or other professionals who provide you health care, to maintain accountability.
5. Unannounced urine, serum, or saliva toxicology screens may be requested and your cooperation is required.
6. You may not use any illicit substances while taking controlled substances including, but not limited to cocaine, heroin, methamphetamine, ecstasy, etc.
7. You may not share, sell, or otherwise permit others to have access to these medications.
8. You will take these medicines as prescribed or you will otherwise notify the physician.
9. **Original containers of medication will be brought to each visit for which a medication refill is being requested with the remaining corresponding medication inside.**
10. **You will maintain a journal of your medication use and bring it to each visit for which a medication refill is being requested.** An example will be provided to you. Maintain a blank original and make copies for use.
11. If your medication has been damaged, misplaced, or stolen you must complete a police report regarding the theft and provide a copy to this office.
12. Renewals are contingent on keeping scheduled appointments no less than 3 days in advance of the end of your current medication cycle. Urgent appointment requests for this purpose will not be honored and it is your responsibility to plan accordingly. Phone calls for prescriptions after hours or on weekends are not compliant with this requirement.
13. Early refills will generally not be given. You may not run out of your medications before an appointment for medication refill.
14. It is understood that any medical treatment is initially a trial and that continued prescription is contingent on evidence of benefit and safety.
15. The risks and potential benefits of these therapies are explained elsewhere (and you acknowledge that you have received such explanation). You agree to not operate heavy machinery while under the influence of these medications.
16. If the legal authorities have questions concerning your treatment all confidentially is waived and these authorities may be given full access to our records of controlled substance administration.
17. You understand that failure to adhere to these policies may result in cessation of therapy with controlled substance prescribing by this physician or referral for further specialty assessment
18. You affirm that you have full right and power to sign and be bound by this agreement, and that you have read, understand, and accept all of its terms.

Violation of any component of this contract may be met with one warning and repeat review of this agreement. No further warnings will be given. Final violation of this agreement indicates that safe outpatient management using these medications has not been demonstrated and therefore results in immediate termination of controlled substance prescribing. A referral to a detoxification program will be provided at that time.

PHYSICIAN-PATIENT ARBITRATION AGREEMENT

Article 1: **Agreement to Arbitrate:** It is understood that any dispute as to medical malpractice, that is as to whether any medical services rendered under this contract were unnecessary or unauthorized or were improperly, negligently or incompetently rendered, will be determined by submission to arbitration as provided by California law, and not by a lawsuit or resort to court process except as California law provides for judicial review of arbitration proceedings. Both parties to this contract, by entering into it, are giving up their constitutional right to have any such dispute decided in a court of law before a jury, and instead are accepting the use of arbitration.

Article 2: **All claims Must be Arbitrated:** It is the intention of the parties that this agreement bind all parties whose claims may arise out of or relate to treatment or services provided by the physician including any spouse or heirs of the patient and any children, whether born or unborn, at the time of the occurrence giving rise to any claim. In the case of any pregnant mother, the term "patient" herein shall mean both the mother and the mother's expected child or children.

All claims for monetary damages exceeding the jurisdictional limit of the small claims court against the physician, and the physician's partners, associates, association, corporation or partnership and the employees, agents and estates of any of them, must be arbitrated, including, without limitation, claims for loss of consortium, wrongful death, emotional distress or punitive damages. Filing of any action in any court by the physician to collect any fee from the patient shall not waive the right to compel arbitration of any malpractice claim.

Article 3: **Procedures and Applicable Law:** A demand for arbitration must be communicated in writing to all parties. Each party shall select an arbitrator (party arbitrator) within thirty days and a third arbitrator (neutral arbitrator) shall be selected by the arbitrators appointed by the parties within thirty days of a demand for neutral arbitrator by either party. Each party to the arbitration shall pay such party's pro rata share of the expenses and fees of the neutral arbitrator, together with other expenses of the arbitration incurred or approved by the neutral arbitrator, not including counsel fees or witness fees, or other expenses incurred by a party for such party's own benefit. The parties agree that the arbitrators have the immunity of a judicial officer from civil liability when acting in the capacity of arbitrator under this contract. This immunity shall supplement, not supplant, any other applicable statutory or common law.

Either party shall have the absolute right to arbitrate separately the issues of liability and damages upon written request to the neutral arbitrator.

The parties consent to the intervention and joinder in this arbitration of any person or entity which would otherwise be a proper additional party in a court action, and upon such intervention and joinder any existing court action against such additional person or entity shall be stayed pending arbitration.

The parties agree that provision of California law applicable to health care providers shall apply to disputes within this arbitration agreement, including, but not limited to Code of Civil Procedure Sections 340.5 and 667.7 and Civil Code Sections 3333.1 and 3333.2. Any party may bring before the arbitrators a motion for summary judgment or summary adjudication in accordance with the Code of Civil Procedure. Discovery shall be conducted pursuant to Code of Civil Procedure Section 1283.05, however, depositions may be taken without prior approval of the neutral arbitrator.

Article 4: **General Provisions:** All claims based upon the same incident, transaction or related circumstances shall be arbitrated in one proceeding. A claim shall be waived and forever barred if (1) on the date notice thereof is received, the claim, if asserted in a civil action, would be barred by the applicable California statute of limitations, or (2) the claimant fails to pursue the arbitration claim in accordance with the procedures prescribed herein with reasonable diligence. With respect to any matter not herein expressly provided for, the arbitration shall be governed by the California Code of Civil Procedure provisions relating to arbitration.

Article 5: **Revocation:** This agreement may be revoked by written notice delivered to the physician within 30 days of signature. It is the intent of this agreement to apply to all medical services rendered any time for any condition.

Article 6: **Retroactive Effect:** If the patient intends this agreement to cover services rendered before the date it is signed (including, but not limited to, emergency treatment) patient should initial below:

Effective as of the date of first medical services

Patient's or Patient's Representative's Initials

If any provision of this arbitration agreement is held invalid or unenforceable, the remaining provisions shall remain in full force and shall not be affected by the invalidity of any other provision.

I understand that I have the right to receive a copy of this arbitration agreement. By my signature below, I acknowledge that I have received a copy.

NOTICE: BY SIGNING THIS CONTRACT YOU ARE AGREEING TO HAVE ANY ISSUE OF MEDICAL MALPRACTICE DECIDED BY NEUTRAL ARBITRATION AND YOU ARE GIVING UP YOUR RIGHT TO A JURY OR COURT TRIAL. SEE ARTICLE 1 OF THIS CONTRACT.
